What to bring for the best island experience.

- Pack food and drink for your time on the island. A small cooler with a single handle or a back pack will help to protect your food from the small animals and birds that populate the island year round. There are no shops or restaurants on the island.
- Come prepared to hike out all your trash.
- Santa Cruz, Scorpion Anchorage has some shade in the camping and picnic areas, but no shade on the trails. Sunscreen and a hat will help to protect you from UV that is present even on overcast days.
- Weather conditions can change rapidly in the Santa Barbara Channel. It is always best to dress in layers and bring a jacket along (even in the summer months).
- Flat shoes with rubber soles are best for both the boat and the island. We recommend hiking shoes. We suggest that you do not wear loose or leather soled sandals nor flip flops on your island adventure.
- Camera and binoculars will add to your trip and this island offers some spectacular photo opportunities.
- Please arrive at your harbor of departure 45 minutes before your schedule mainland departure.
